

# Career Interest Profiler

## Updated with more Canadian Content

NEW

Help your clients go further in their career exploration

The new dynamic, interactive *Canadian Career Interest Profiler* report allows your clients to easily explore their career options, by having more information at their fingertips. The new report contains the most current occupational information with over 1100 careers within the database. Clients can find out more about their top rated careers with just a click of the mouse.

» 10 credits

Canadian information available includes:

- + Region specific job opportunities
- + Up-to-date information on job duties and skills requirements
- + Salaries and occupational outlook
- + License and certification requirements

The *Career Interest Profiler* is a Canadian developed measure of the six Holland codes and suggests top careers, hobbies, and activities that fit your client's interests.

The *Career Interest Profiler* offers a substantial number of vocational/technical occupations that do not require a college or university degree.
