# HOW THE STRONG CAN HELP YOU

The Strong Interest Inventory® instrument is a powerful tool that can help you make satisfying decisions about your career and education. Whether you are just starting out in your career, thinking about a change, or considering education options for career preparation, you can benefit from the wealth of information reflected in your Strong results. # **GENERAL OCCUPATIONAL THEMES**

**SECTION 1** 

The General Occupational Themes (GOTs) measure six broad interest patterns that can be used to describe your work personality. Most people's interests are reflected by two or three Themes, combined to form a cluster of interests. Work activities, potential skills, and values can also be classified into these six Themes. This provides a direct link between your interests and the career and education possibilities likely to be most meaningful to you.

Your *standard scores* are based on the average scores of a combined group of working adults. However, because research shows that men and women tend to respond differently in these areas, your *interest levels* (Very Little, Little, Moderate, High, Very High) were determined by comparing your scores against the average scores for your gender.

# **BASIC INTEREST SCALES**

**SECTION 2** 

The Basic Interest Scales represent specific interest areas that often point to work activities, projects, course work, and leisure activities that are personally motivating and rewarding. As with the General Occupational Themes, your interest levels (Very Little, Little, Moderate, High, Very High) were determined by comparing your scores against the average scores for your gender.

As you review your results in the charts below, note your top interest areas and your areas of least interest, and think about how they relate to your work, educational, and leisure activities. Take time to consider any top interest areas that are not currently part of your work or lifestyle and think about how you might be able to incorporate them into your plans.

# **OCCUPATIONAL SCALES**

**SECTION 3** 

This section highlights your Profile results on the Occupational Scales of the *Strong*. On the following pages you will find your scores for 130 occupations. The 10 occupations most closely aligned with your interests are listed in the summary chart below. Keep in mind that the occupations listed in your Profile results are just *some* of the many occupations linked to your interests that you might want to consider. They do not indicate those you "should" pursue. It is helpful to think of each occupation as a single example of a much larger group of occupational titles to consider.

Your score on an Occupational Scale shows how similar your interests are to those of people of your gender who have been working in, and are satisfied with, that occupation. The higher your score, the more likes and dislikes you share with those individuals. The Theme codes associated with each occupation indicate the GOTs most commonly found among people employed in that occupation. You can review your top occupations to see what Theme codes recur and then explore additional occupational titles not included on the *Strong* that have one or more of these Theme letters in common.

Physicist (IRA)

Veterinarian (IRA)

Medical Illustrator (AIR)

As you read through your Occupational Scales results on this and the following pages, note the names of those occupations for which you scored "Similar." Those are the occupations you might want to explore first. Also consider exploring occupations on which you scored in the midrange, since you have some likes and dislikes in common with people in those occupations. You might also consider occupations of least interest or for which you scored "Dissimilar"; however, keep in mind that you are likely to have little in common with people in these types of work and probably would contribute to such occupations in a unique way. Your career professional can guide you further in the career exploration process.

Click the name of any of the occupations in your top ten list above to visit the O\*NET™ database (http://www.onetonline.org) and see a summary description of that occupation. Learn about occupations by visiting reputable Web sites such as O\*NET. You can also find career information in a public library, in the career library of a college or university near you, or in a professional career center or state or local government job agency. Supplement your research by talking to people who are working in the occupations you are considering. These people can describe their day-to-day work and tell you what they like and dislike about the occupation.

The Personal Style Scales describe different ways of approaching people, learning, and leading, as well as your interest in taking risks and participating in teams. Personal Style Scales help you think about your preferences for factors that can be important in your career, enabling you to narrow your choices more effectively and examine your opportunities. Each scale includes descriptions at both ends of the continuum, and the score indicates your preference for one style versus the other.

Your scores on the Personal Style Scales were determined by comparing your responses to those of a combined group of working men and women.

As you read this report, always keep in mind that the *Strong* is an inventory of your interests. It is not a test of your abilities. If you need clarification of your results, be sure to talk them over with your career professional.

# YOUR GENERAL OCCUPATIONAL THEMES

Your report begins with your results on the six General Occupational Themes. The chart below expands on the information presented on your Profile to include definitions of the Themes on which you scored highest, as well as career fields, personal descriptors, and leisure activities typically associated with those Themes. The Themes describe broad patterns of interest and can be used to help you identify satisfying work environments, the kinds of people you might enjoy working with, and what motivates you the most at work. Keep in mind that because the Themes are very broad, the descriptors may not fit you exactly.

# YOUR THEME DESCRIPTIONS

# A CLOSER LOOK AT YOUR GENERAL OCCUPATIONAL THEMES

Most people's interests combine more than one Theme. Your highest Themes suggest career fields that might interest you the most and are your strongest career motivators—what will most excite you in your work. Examples of career fields for your highest Themes are highlighted below.

The top Themes of your Theme code are Social and Artistic. These Themes are the ones on which we will focus in this section. Of course, you are not limited to these career fields. They are only a starting point for your exploration process.

# **SELECTED CAREER FIELDS**

- · Counseling or psychotherapy
- · Art, dance, or journal therapy
- · Elementary school teaching
- Religious occupations
- Speech pathology
- Social work

#### **ACTION STEP**

Note any career fields in the list above that appeal to you.

Although your Themes have some characteristics in common, each one has unique career motivators—what will stimulate you to achieve in your career.

# **YOUR CAREER MOTIVATORS**

YOUR HIGHEST THEME	STRONGEST CAREER MOTIVATOR	MOTIVATOR COMBINATIONS
Social	Helping others	<b>SA</b> Helping others in original or imaginative ways, with autonomy and independence
Artistic	Expressing creativity	AS Using your creativity in friendly, helpful, and service-oriented ways

# **ACTION STEPS**

- 1. Consider your career motivators. How might they determine the kind of work environment that would be attractive to you or the kind of work you would like to do? How have they been present in your life up to this point?
- 2. Consider other potential careers that seem to combine helping others and expressing creativity.

The next section of your report begins to narrow down the broad Theme categories into more specific interests.

# YOUR BASIC INTERESTS

Now that you have considered your interests at the most general level, it is time to focus on specific areas of activity—things you might like to do. There are 30 Basic Interest Scales on the *Strong*.

The Basic Interest Scales in which you show the most interest are listed below. Notice that each Basic Interest is related to a particular Theme.

# YOUR TOP STRONG INTEREST AREAS

BASIC INTEREST SCALE	ТНЕМЕ	TYPICAL INTERESTS AND ACTIVITIES
Religion & Spirituality	Social	Conducting worship services     Providing spiritual counseling     Studying religion
Counseling & Helping	Social	<ul><li>Helping or encouraging others</li><li>Working on a crisis hotline</li><li>Contributing to charities</li></ul>
Teaching & Education	Social	Teaching young people Planning learning activities Explaining what things mean
Writing & Mass Communication	Artistic	Writing articles and stories     Television announcing     Reading
Politics & Public Speaking	Enterprising	Making public presentations     Running for political office     Serving on a school board

# **ACTION STEPS**

- 1. Look over the interest areas above. How are they present in your life now? Do they represent your current work, school, or leisure interests? Do the activities you like cluster in the same Themes as your general interests? If they do, your interests are probably fairly focused. Try to make sure your work matches these interests. If your interest areas do not cluster, your interests may be more diverse. Think about ways you might incorporate some of them into your work and others into your leisure time.
- 2. Look at section 2 of your Profile. In what areas do you have the least interest? Try to avoid these areas in your work. If you do have to work in areas that are not particularly interesting to you, try to engage your top interests in your leisure time.

# YOUR SIMILARITY TO OCCUPATIONS

The Occupational Scales section of the *Strong* focuses your work interests even further. A high score on an Occupational Scale means your likes and dislikes are similar to those of the people who work in the occupation and who are satisfied with their jobs. Listed below are the Occupational Scales on which you scored the highest. You may enjoy the day-to-day work of these or related occupations. #### **ACTION STEPS**

- 1. Using the summary chart on the preceding page or any of the descriptors you highlighted in this report or on your Strong Profile, create a master list of all descriptors that either describe you or appeal to you. Take this list with you to any informational or job interviews you attend. During the interview, ask questions to determine whether there are opportunities to express these interests or engage in these activities and try to determine whether there is a good fit between your interests and the job you are considering. For example, if you highlighted helpful, collaborative, cooperative, ask about opportunities to express this interest.
- 2. Your *Strong* results can also help you during your career exploration. Your Social Theme score suggests that the career planning process may at times seem too impersonal, requiring you to be more objective and reflective than you like to be. To keep yourself motivated:
  - Talk to as many people as possible who work in occupations related to your interests.
  - Join clubs or volunteer in the areas that interest you.
  - . Share your feelings with family and friends.
  - Visit some classes before you enroll in a career-related educational program to make sure the training will be meaningful and allow you to make personal connections.
  - Ask a close friend to help you check out your decision so that you can bounce ideas off him or her and get support.
- 3. The booklet Where Do I Go Next? Using Your Strong Results to Manage Your Career provides worksheets to help you in your career exploration. Use this booklet and other helpful books and Web sites suggested by your career professional.
